

ULTRASOUND IMAGING

Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST HEAD & NECK

AREA OF INTEREST HEAD & NECK	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
	HEAD/NECK SOFT TISSUE <i>(should not be ordered with Thyroid)</i>	Lymph nodes parotid/submandibular glands, neck palps/lumps SEE BELOW FOR THYROID	Lymph nodes, glands	None	76536
	THYROID <i>(should not be ordered with Head & Neck)</i>	Thyroid nodules SEE ABOVE FOR LYMPH NODES	Thyroid	None	76536
	THYROID FINE NEEDLE ASPIRATION	Fine needle aspiration of a thyroid nodule <i>(preferred method)</i>	Specific thyroid nodule	No aspirin, blood thinners, or NSAIDs five days prior to exam	10022 AND 76942
	LYMPH NODE FINE NEEDLE ASPIRATION	Fine needle aspiration of a specific node <i>(preferred method)</i>	Specific lymph node	No aspirin, blood thinners, or NSAIDs five days prior to exam	10022 AND 76942
	LYMPH NODE BIOPSY	Core biopsy of a specific node	Specific lymph node	No aspirin, blood thinners, or NSAIDs five days prior to exam	38505 AND 76942
	CAROTID ARTERIES	Stenosis, TIA, dizziness, speech disturbance, facial weakness, family history of stroke	Carotid arteries, vertebral arteries	None	93880*

ULTRASOUND IMAGING

Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST

ABDOMEN

AREA OF INTEREST	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
ABDOMEN	ABDOMEN <i>(not for appendix, no anatomy imaged below umbilicus)</i>	Abdominal pain, R/O gallstones, elevated blood work	Liver, gallbladder/CBD kidneys, pancreas, aorta/IVC, spleen	AM NPO after midnight PM 5-hr. liquid/ food fast	76700
	LIMITED ABDOMEN, SINGLE ORGAN	Quadrant-specific, follow up, organ-specific	Organ-specific (liver, gallbladder/CBD kidneys, pancreas, aorta/IVC, spleen)	AM NPO after midnight PM 5-hr. liquid/ food fast	76705
	ELASTOGRAPHY <i>(must be done with abdomen U/S)</i>	Fibrosis	Liver	AM NPO after midnight PM 5-hr. liquid/ food fast	0346T
	AORTA - AAA SCREENING	Screening for AAA, family history NO DOPPLER OF AORTA	Aorta, common iliac proximal	AM NPO after midnight PM 5-hr. liquid/ food fast	76706
	AORTA DOPPLER DUPLEX SCAN	F/U of known AAA NOT A SCREENING STUDY	Aorta, common iliac proximal	AM NPO after midnight PM 5-hr. liquid/ food fast	93979*
	APPENDIX	RLQ pain, appendicitis	Appendix, limited gallbladder and right kidney	AM NPO after midnight PM 5-hr. liquid/ food fast	76705

ULTRASOUND IMAGING

Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST

ABDOMEN AND PELVIS

AREA OF INTEREST	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
ABDOMEN AND PELVIS	KIDNEY AND BLADDER	Renal stones, flank pain	Kidneys, bladder (pre- and post-void)	32oz. water finished 1 hr. before exam, full bladder	76770
	ABDOMEN/ BLADDER	Complete abdomen U/S with bladder	Kidneys, bladder (pre- and post-void)	AM Food fast after midnight PM 5-hr. food fast, 32oz. water finished 1 hr. before exam, full bladder	76700 76857
	RENAL ARTERY DOPPLER	Hypertension, chronic kidney disease, kidney failure	Renal sonogram plus renal artery doppler	AM NPO after midnight PM 5-hr. food fast, 32oz. water finished 1 hr. before exam, full bladder	93975*
	RETRO- PERITONEAL	Family history of AAA, R/O AAA, smoker	Kidneys, abdominal aorta, common iliac artery, IVC	AM NPO after midnight PM 5-hr. liquid/ food fast	76775
	ABDOMEN/ RENAL RETRO- PERITONEAL DOPPLER	Function of specific vessels: renal vein thrombosis, IVC occlusion, partial hypertension, F/U TIPS	Per protocol	AM NPO after midnight PM 5-hr. liquid/ food fast	93975* AND 76770 OR 76700

ULTRASOUND IMAGING

Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST

PELVIS

AREA OF INTEREST	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
PELVIS	PELVIS <i>(this exam is a transabdominal scan ONLY)</i>	F: Any gynecological issues M: Reproductive organs NO OBSTETRICAL EXAMS	F: Uterus, ovaries, cervix, vagina M: Bladder, pelvic pathology, prostate, seminal vesicles	32oz. water finished 1 hr. before exam, full bladder	76856
	LIMITED PELVIS	Re-evaluation/follow up	See above	32oz. water finished 1 hr. before exam, full bladder	76857
	BLADDER ONLY	Pre- and post-void residual	Bladder	32oz. water finished 1 hr. before exam, full bladder	76857
	TRANSVAGINAL	Any gynecological issues NO OBSTETRICAL EXAMS	Uterus, ovaries, cervix	Prep to be given upon scheduling	76830
	PELVIS AND TRANSVAGINAL	Any gynecological issues NO OBSTETRICAL EXAMS	Uterus, ovaries, cervix, vagina	Prep to be given upon scheduling	76856 76830
	TRANSVAGINAL W/OVARIAN ADNEXAL DOPPLER	Color and spectral doppler of known ovarian masses NO OBSTETRICAL EXAMS	Uterus, ovaries, cervix	Prep to be given upon scheduling	76830 AND 93975*
	SCROTUM	Testicle pain, palpable lump, torsion, hydrocele	Scrotum	None	76870

ULTRASOUND IMAGING

Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST EXTREMITIES

AREA OF INTEREST EXTREMITIES	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
	UPPER EXTREMITY VEINS DUPLEX	Pain, swelling, redness, R/O DVT, edema	Arm veins, jugular, subclavian	None	UNI: 93971 BIL: 93970
	UPPER EXTREMITY ARTERIAL DOPPLER	Claudication, peripheral arterial disease	Arm arteries	None	UNI: 93930* BIL: 93931*
	UPPER EXTREMITY SOFT TISSUE <i>(non-vascular)</i>	Extremity lumps, mass, lipoma, cyst	Area of clinical concern	None	76882
	LOWER EXTREMITY VEINS DUPLEX	Pain, swelling, redness, edema, R/O DVT vs. Baker's Cyst	Leg veins: saphenous, femoral, and popliteal	None	UNI: 93971 BIL: 93970
	LOWER EXTREMITY JOINT	Achilles tendon tear, tendon injury, bursitis, muscle injury	Area of clinical concern, joint, muscle, tendon	None	76881
	LOWER EXTREMITY ARTERIAL DOPPLER	Claudication, peripheral arterial disease	Leg arteries	None	UNI: 93926* BIL: 93925*
	LOWER EXTREMITY SOFT TISSUE <i>(non-vascular)</i>	Extremity lumps, mass, lipoma, R/O Baker's cyst	Area of clinical concern	None	76882

ULTRASOUND IMAGING Exam Reference / Protocol Guidelines

For additional information on ULTRASOUND and other radiologic exams, please consult the American College of Radiology's ACR Appropriateness Criteria® document found at www.ACR.org.

AREA OF INTEREST PEDIATRICS

AREA OF INTEREST PEDIATRICS	BODY PART/ EXAM	REASON FOR EXAM	BODY PARTS/ ORGANS IMAGED	PREP	CODES
	PEDIATRIC BRAIN <i>(under one year old, anterior fontanelle must be present)</i>	Increasing head circumference, R/O hydrocephalus or macrocephalus	Brain	None	76506
	PEDIATRIC LIMITED ABDOMEN	Vomiting, R/O pyloric stenosis	Pylorus, RUQ	Parents should bring an empty bottle and a bottle of Pedialyte, and withhold the last feeding or at least 3 hours prior to the exam	76705
	PEDIATRIC SPINAL CANAL & CONTENTS <i>(less than four months)</i>	Sacral dimple	Spinal canal	None	76800
	BILATERAL EXTREMITY PEDIATRIC HIPS <i>(six weeks to nine months; two to five weeks at referring doctor's request)</i>	Hip click, DDH, breech, asymmetric thigh folds/creases,	Hips	None	76885
